

PLAYER DNA

FRANCHISE PROSPECTUS • 2026

Own the first **AI** sports academy in your market.

PlayerDNA Labs turns a single video into a complete athlete profile — and turns that technology into a franchiseable academy. This pack covers the opportunity, a worldwide benchmark, and the technical, financial and legal studies behind a PlayerDNA franchise.

FOR

Investors • Operators • Academies

ENTRY

USD 45K – 600K by tier

MODEL

Turnkey AI academy franchise

PLATFORM

playerdna.tech

FRANCHISE INFORMATION PACK • NOT A FRANCHISE OFFER OR FDD

CONFIDENTIAL – FOR EVALUATION BY PROSPECTIVE FRANCHISEES

Football is going data-first. Be the brand that owns it locally.

Talent identification, player development and injury prevention are shifting from gut feel to AI. The 2026 World Cup, record youth participation and Gulf investment in sport are accelerating demand — yet most regions still have **no AI-native academy brand**. PlayerDNA franchises fill that gap with a turnkey, camera-first model that scales from a phone to a full performance lab.

\$2.7_B

Global sports-analytics market (2023), projected ~22% growth this decade

2026

FIFA World Cup in North America driving a youth-football surge

16

Assessment dimensions per athlete — from one video

3

Franchise tiers — from camera-only studio to elite lab

Why now

Camera-first AI removes the historic barrier to athlete assessment — expensive labs and hardware. A PlayerDNA franchisee can launch fast, serve schools, clubs and academies across a protected territory, and grow revenue from assessments, training programmes and B2B contracts on one platform and one brand.

One platform. **Eight engines.** Three modes.

Franchisees deliver the full PlayerDNA platform: an 18-protocol test battery and a 16-dimension model that produce position fit, injury-risk indicators, neuroscience profiling, a development plan and a coach-ready report — from a single video, validated against international sports-science standards.

ENGINE

Movement & Pose AI

Frame-by-frame tracking turns video into speed, power, agility and biomechanics.

ENGINE

Position Intelligence

All 8 positions scored; top-3 best-fit with transparent reasoning.

ENGINE

Injury Risk & RTP

ACL, hamstring, ankle risk plus return-to-play readiness.

ENGINE

Neuroscience & Report

Cognitive profiling and a 7-section professional report.

MODE 01

Camera-Only

Any smartphone, no hardware — estimates movement, speed, jump, agility & best position.

MODE 02

Hybrid

Camera AI + HR, GPS, timing gates & scale for measured load & physiology.

MODE 03

Elite Lab

Force plates, VO₂, lactate & ECG confirm the profile with lab-grade truth.

03 · WORLDWIDE BENCHMARK

How PlayerDNA compares to the global AI-sports leaders.

The market splits into AI scouting platforms (sold to clubs) and tech-enabled training franchises (sold to operators). PlayerDNA is the first to combine **camera-first AI assessment** with a **turnkey, franchiseable academy** — at a fraction of the hardware capex of physical-center franchises.

DIMENSION	PLAYERDNA	AISCOUT (AI.IO)	TOCA FOOTBALL	D1 TRAINING
Core model	AI assessment + franchise academy	B2B AI scouting SaaS (clubs)	Tech training centers	Athletic-training franchise
AI athlete assessment	Full · 16-dim / 18-protocol	Drills & scoring (scouting)	Training data / ball machine	—
Camera-first, low hardware	Yes	Yes	No (machines/centers)	No (racks/gym)

Dimension	PlayerDNA	aiScout (ai.io)	TOCA Football	D1 Training
Injury risk + return-to-play	Yes	—	—	Conditioning only
Position intelligence	Yes	Scouting fit	—	—
Available as a franchise	Yes — turnkey	No (license to clubs)	Intl. franchising (from 2024)	Yes
Typical entry / investment	USD 45K – 600K (by tier)	Club license: 6-figures (tier-1) → low-thousands	Large center capex	~USD 481K – 933K (FDD)
Ongoing royalty	8% + 2% brand fund	n/a (license)	n/a (public)	~7% + ~2% marketing
Primary customer	Academies · clubs · schools · parents	Pro clubs & FAs	Consumers / youth	Athletes · youth · adults

Sources: public company announcements and press (ai.io / aiScout, TOCA Football 2024–2025), and D1 Training 2025 Franchise Disclosure Document figures, as reported publicly. Ranges are indicative and for positioning only; verify current figures independently. Comparison of categories, not an endorsement.

aiScout · ai.io

Proves the AI thesis

London-based; smartphone, markerless motion-capture scoring across drills; partners include Chelsea, Burnley and MLS; 100k+ player database across 125 countries — but sold *to clubs*, not as a local academy.

TOCA Football

Proves the capital model

Tech-enabled training centers; ~37–39 sites; raised \$250M+ and began international franchising in 2024 — but hardware-heavy (ball machines, large venues) and not an AI assessment platform.

D1 Training

Proves the franchise unit

~127 franchised units; ~\$59.5K franchise fee; ~\$481K–\$933K total investment; 7% royalty; territory protection — strong franchise economics, but no AI and no position/injury intelligence.

PlayerDNA’s white space

None of the leaders offer a **franchiseable, AI-native academy** that is camera-first (low capex), covers assessment + injury + position + development on one platform, and is built for the MENA/Gulf and emerging football markets. That is the PlayerDNA franchise.

Three ways to own a territory.

Every tier shares the same brand, platform and one athlete profile. Start camera-first and scale to hardware as you grow. Each franchise is granted a **protected territory** for an initial 5-year, renewable term.

TIER 01

Studio

Camera-AI · schools & grassroots

Franchise fee	USD 20,000
Total investment	45K – 90K
Footprint	50–80 m²
Royalty / brand fund	8% / 2%

MOST POPULAR

TIER 02

Academy

Hybrid · clubs & academies

Franchise fee	USD 35,000
Total investment	120K – 220K
Footprint	150–300 m²
Royalty / brand fund	8% / 2%

TIER 03

Elite / Master

Elite lab · country & region rights

Franchise fee	USD 75,000+
Total investment	250K – 600K
Footprint	Lab + pitch
Rights	Sub-franchising

Three revenue streams per unit

STREAM 01

AI Assessments

Per-player profiling sold to academies, schools and parents — the differentiator and the funnel.

STREAM 02

Training & Membership

Recurring development programmes and memberships built around each player's data — the core engine.

STREAM 03

Camps & B2B Contracts

Clinics, camps and contracts with clubs, schools and federations for squad-wide screening.

05 · TECHNICAL STUDY & REQUIREMENTS

What it takes to run a unit.

PlayerDNA hosts the platform, AI and data; the franchisee provides the local capture, coaching and facility. Requirements scale by tier.

REQUIREMENT	STUDIO	ACADEMY	ELITE / MASTER
Space	50–80 m ²	150–300 m ² + turf access	Lab + full pitch
Capture hardware	Smartphone / tablet rig	+ HR · GPS · timing gates · scale	+ force plates · VO ₂ · lactate · ECG
Compute & connectivity	Workstation + ≥50 Mbps	Workstation + ≥100 Mbps	Edge workstation + ≥200 Mbps
Certified staff	1 assessor	2 assessors + coaches	Assessors + sports scientist + physio
Software	PlayerDNA platform license (hosted)	Platform + squad dashboards	Platform + API & data export

Requirement	Studio	Academy	Elite / Master
Data hosting & security	By PlayerDNA	By PlayerDNA	By PlayerDNA (+ optional on-prem)

Standards & certification

- ◆ Assessment protocols aligned to EUROFIT, ACSM, ISAK, WHO/CDC and FIFA 11+.
 - ◆ Mandatory PlayerDNA Assessor Certification (3 levels) before launch.
 - ◆ Player data hosted in PlayerDNA systems; guardian consent for minors.
- ◆ Data secured to GDPR principles, SOC 2 and HIPAA-aligned safeguards.
 - ◆ Capture & data-quality standards with platform validation per upload.
 - ◆ Brand & operations manual govern delivery, pricing and presentation.

10%

Total ongoing fees
to PlayerDNA (8%
royalty + 2% brand)

Key assumptions. ~600 / 900 / 1,200 assessments per year; blended selling price ~\$150; membership/programme growth as the unit matures; platform fee ~\$90 per assessment; staff and rent at MENA/Gulf benchmarks. **These are illustrative projections only** — actual results depend on territory, management, pricing and market conditions. Nothing here is a guarantee of revenue or profit, a securities offering, or a franchise offer.

Structured to be franchise-law ready.

The PlayerDNA franchise is built on a clear contractual stack and is designed to be adapted to the franchise and data-protection laws of each market before any offer is made.

DOCUMENT STACK

Contractual framework

- Franchise Agreement (territory, term, fees, standards)
- Operations & Brand Manual (delivery & pricing)
- Platform & Data-Processing Agreement (hosting, IP, player data)
- Assessor Certification & sub-franchise terms (Master tier)

IP & DATA

What stays with PlayerDNA

- All platform, AI, models, methodology & marks remain PlayerDNA's
- Franchisee receives a limited, territory-bound license only
- Player data hosted & secured in PlayerDNA systems
- Anonymized/aggregated data & product improvements owned by PlayerDNA

Disclosure items covered (FDD-style)

- ◆ Franchisor background, experience & any litigation/bankruptcy.
 - ◆ Territory, exclusivity & development rights.
 - ◆ Franchisee & franchisor obligations; restrictions on sales.
 - ◆ Financial performance representations (where lawful).
- ◆ Initial & ongoing fees; estimated initial investment.
 - ◆ Trademarks, patents, copyrights & proprietary information.
 - ◆ Training, certification & ongoing support.
 - ◆ Renewal, termination, transfer & dispute resolution.

Jurisdiction checklist

MARKET	FRANCHISE LAW BASIS	KEY STEP BEFORE OFFERING
Saudi Arabia	Franchise Law 2019 + Implementing Regulations	Register the franchise & file a disclosure document with MCI
UAE	Commercial Agencies Law & Civil/Commercial Codes	Structure as commercial agency/franchise; consider registration

MARKET	FRANCHISE LAW BASIS	KEY STEP BEFORE OFFERING
Jordan / Levant	General commercial & contract law (no franchise statute)	Structure as a commercial/licensing & franchise agreement
United States	FTC Franchise Rule + state registration states	Issue an FDD and observe the 14-day disclosure period
EU / UK	Competition rules & codes (e.g., BFA); GDPR	Vertical-agreement compliance & data-protection review

Important legal notice

This document is an informational franchise pack — **not a franchise offer, Franchise Disclosure Document, or securities offering**, and not legal or financial advice. Franchise and data-protection laws vary by country and change over time. Before offering or selling any franchise, PlayerDNA and each prospective franchisee must obtain advice from qualified counsel and complete any required registration and disclosure (e.g., KSA Franchise Law, US FTC/FDD, GDPR/PDPL) in the relevant jurisdiction.

— 08 · WHO WE PARTNER WITH

The right franchisee.

PROFILE

We look for

- Passion for football/sport & youth development
- Capital and liquidity for the chosen tier
- Local network — clubs, schools, federations
- Access to a facility or pitch in the territory
- Commitment to brand, data & quality standards

OBLIGATIONS

Franchisee commits to

- Charge only the agreed PlayerDNA pricing
- Obtain player/guardian consents for all data
- Maintain certification & capture standards
- No competing product or data extraction
- Pay royalty, brand fund & platform fees

What PlayerDNA provides

SUPPORT

Platform & AI

Hosted platform, engines, dashboards, reports & continuous updates.

SUPPORT

Training & certification

3-level assessor certification, operations manual & onboarding.

SUPPORT

Brand & marketing

Brand kit, launch campaign templates & the brand fund.

SUPPORT

Regional success team

Ongoing support, data security & an annual franchise conference.

— 09 · FROM APPLICATION TO LAUNCH

Your path to opening.

STEP 1 · WEEK 0

Application & discovery

Submit interest, territory and budget. Mutual fit call and review of this pack.

STEP 2 · WEEKS 1-3

Disclosure & agreement

Receive market-specific disclosure, finalize territory, and sign the Franchise Agreement.

STEP 3 · WEEKS 3-8

Site, setup & install

Site approval, fit-out, equipment install and platform provisioning for the tier.

STEP 4 · WEEKS 6-9

Certification

Assessor certification, brand & operations training, and pre-launch marketing.

STEP 5 · WEEK 10+

Launch & grow

Open, run first assessments & programmes, and scale with regional support.
