COVERAGE

All 22 players + ball

— 01 · TECHNICAL · WHAT IT ANALYZES

Every metric that **decides a match.**

From a single match video, the AI tracks all 22 players and the ball to produce four layers of analysis — physical, technical, tactical, and per-player & team outputs.

How hard they ran

- Total distance covered (per player & team)
- High-speed running & sprint distance
- Number of sprints & top speed reached
- Accelerations & decelerations
- Distance by speed zone (walk → jog → run → sprint)
- Work-rate & intensity zones · player load
- Movement heatmaps & positioning density

What they did with the ball

- Passes — attempted, completed & accuracy %
- Touches, ball possession & time on ball
- Dribbles / take-ons & success rate
- Shots, shots on target & xG (expected goals)
- Crosses, key passes & chances created
- Tackles, interceptions, recoveries & clearances
- Duels won — ground & aerial

How the team played

- Formation & in-game shape changes
- Average positions & team compactness
- Pressing intensity & PPDA
- Transitions — attack ↔ defence
- Territory & zone control (thirds & channels)
- Build-up & progression patterns
- Set-piece analysis (corners, free-kicks)

What you receive back

- Individual report for every player
- Team performance report
- Pass networks & pass maps
- Heatmaps, sprint maps & average-position maps
- Tagged event timeline & key-moment clips
- xG & chance-creation summary
- Side-by-side comparison vs opponent

From one camera to a full report.

SPECIFICATIONS

Input & technology

- ◆ **Input:** a single wide / tactical-camera or broadcast video of the full match.
- ◆ **Method:** markerless computer-vision tracking of all players & the ball, plus AI event detection.
- ◆ **Coverage:** 22 players + ball; both teams analysed.
- ◆ **Footage guide:** full-pitch wide angle, ≥720p, stable framing for best accuracy.
- ◆ **Security:** GDPR principles · SOC 2 · HIPAA-aligned data handling.
- ◆ **Report language:** English & Arabic.

DELIVERABLES

Your full match package

- ◆ **Full match report** (PDF) — team + every player.
- ◆ **Physical, technical & tactical dashboards.**
- ◆ **Visuals:** heatmaps, pass maps, sprint & average-position maps.
- ◆ **Tagged event timeline** with key-moment clips.
- ◆ **xG & chance-creation** summary & opponent comparison.
- ◆ **Data export** (CSV/JSON) + 12-month dashboard access.

TURNAROUND

Full report within 2 working days

Each match report is delivered within two (2) working days of receiving conforming footage. For multi-match blocks, reports are delivered on a rolling 2-day-per-match schedule.

03 · FINANCIAL OFFER

Per-match pricing, better with volume.

A clear per-match rate that drops as you commit more matches — ideal for single games, full tournaments or a whole season.

VOLUME	WHAT YOU GET	PRICE / MATCH	REPORT TURNAROUND
1 match	Full match analysis package	USD 700	2 working days
2 – 10 matches	Full package, per match	USD 600	2 working days each
11 – 20 matches	Full package, per match	USD 400	2 working days each
21+ / season	Season & tournament package	Custom	Scheduled

Single match

\$700

10-match block · 10 × \$600

\$6,000 · \$600/match

20-match block · 20 × \$400

\$8,000 · \$400/match

TERM	DETAIL
Pricing basis	Per match analysed; volume rate set by total matches in the order
Includes	Full physical, technical & tactical analysis, all visuals, report & dashboard
Turnaround	Full report within 2 working days of receiving conforming footage
Footage	Supplied by the client (single wide / broadcast camera)
Taxes	Exclusive of VAT / local taxes
Payment	Per engagement / on order
